Short Biography

Moonwalker is a technoartist out of Amsterdam. Broadly, are his productions a fusion hard techno and hard trance, but also experiment with other styles.

Experimentations and improvisational aspects are also commun so that it real becomes a listening experience.

Long biography

Moonwalker is a real musician. As child he played the djembe, as teenager the piano, and as adolescent he began making electronic music. In his study music therapy he

The name Moonwalker draws on the feeling of walking alone through dark, silent nights; entering unfamiliar terrain where time, distance, and perception begin to change. It reflects music that is both forceful and introspective.
